Education

Madhav Institute of Technology & Science
B.Tech – CS & Design
2025 – 2029

Class 10th 94% (CBSE)
Class 12th 88% (CBSE)

Languages

- English
- Hindi
- French
- Sanskrit

Summary

First-year B.Tech (CS & Design) student at MITS with a passion for blending technology and creativity. Skilled in C, C++, Python, HTML, CSS, and JavaScript with hands-on project experience. Strong communicator and quick learner with a flair for UI/UX thinking and building clean, functional digital solutions.

Skills

Technical: C, C++, Python (Basics), HTML, CSS, JavaScript (Basics)

Frontend: HTML5 · CSS3 (Flexbox, Grid, Responsive) · JavaScript (DOM, ES6+)

Soft Skills: Leadership · Teamwork · Quick Learner · Problem-solving · Curiosity

Tools: VS Code · Git · Canva

Creative: PowerPoint design · UI/UX principles · Concept sketching

Relevant Coursework

Core CS & Programming: DSA · C/C++ Programming · OOP · Computer Organization

Design & Visual Computing: Computer Graphics · UI/UX Principles · Design Thinking · Digital Media

Projects

Software

- **Travelin – Travel Organizer Web App (HTML · CSS · JS)**

Fetches live flight prices and hotel listings via RapidAPI; users search by destination and date with results rendered dynamically using JavaScript DOM manipulation.

- **Squeeze-The-Quiz – Quiz Game (C)**

Interactive terminal quiz with multiple categories, score tracking, and timed question rounds.

- **Personal Portfolio Webpage (HTML · CSS · JS)**

Responsive single-page site showcasing projects, skills, and contact info with smooth UI.

Hardware

- **LPG Detector**

Arduino-based gas leakage detection system that triggers an alarm when LPG levels exceed safe limits.

Certifications

- Concept Development and Hands-on C with Evaluation Session
- Python Essentials for Engineering Applications
- TechXposure – Basic Info of Fields in Computer Science
- Responsive Web Design – freeCodeCamp (HTML & CSS)
- JavaScript Algorithms and Data Structures – freeCodeCamp (In Progress)
